This image shows a completed LEGO Technic model, likely a robotic claw or gripper. The structure is built on a grey base plate. It features a large brown frame with a green section on the left side. A small white motor or actuator is visible at the front, connected to a grey lever arm. The model is composed of various LEGO Technic bricks and connectors, including brown, green, and grey pieces.

This image shows a completed LEGO Technic model, likely a small building or structure. The model is constructed using a variety of Technic bricks and plates in brown, grey, orange, and green. The base is a large green plate. The structure features a prominent orange section in the foreground, a grey section in the middle, and a brown section on the right. The model is built on a grey base plate. The overall design is intricate, with many small details and a complex arrangement of bricks.
